

Forklift Electrical Part

Electrical Parts for Forklifts - Lift trucks may be purposely marked for use in dangerous places. A labeled lift truck denotes the design has met the least requirements of ANSI/UL 558 used for engine powered lift trucks or ANSI/UL 583 intended for electric lift trucks for the type of label placed.

Applications for labeled lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Ask your local insurance carrier and Fire Marshall for additional information about the approved uses of industrial powered lift trucks in your application.

If the specific forklift meets the outlined standards, labels can be placed. A labeled lift truck will show the type of designation located on the nameplate and would have a correctly corresponding label attached.
