

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each global trade. Transporting industrial goods happens every day on our busy planet. Primarily innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM started constructing lift truck manufacturing sites outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial lift trucks with more than 50 years of accumulated technology and expertise, making their products recognized and used all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
